### General Nondomestic User Discharge Permit Application

The permitting program for Nondomestic Dischargers is intended to identify all nondomestic users discharging to Genesee County Drain Commissioner's Office Division of Water and Waste Services (GDCDWWs) sewer systems for treatment at one of our Treatment Plants. The intent of this application is to provide information to enable an evaluation of the quality of the discharge to the sewer. This application is designed to provide initial details to issue a General Nondomestic Discharge Permit, but additional information may be requested. **Note that Significant Industrial Users, or such other Nondomestic Users as determined appropriate by the POTW Superintendent, shall complete an additional application and will be notified after the review of this General Application form.**

#### Completeness

Complete this mandatory form, sections A-K. The application requires both an Authorized Representative signature and a Property Owner signature. If the same person is the Property Owner and the Authorized Representative, he/she should sign both statements. The form is not considered complete without both signatures.

Include in the submittal a plumbing plan and a floor plan that includes labels for the building areas and uses.

If you have any questions please contact the Environmental Compliance Office by phone at (810) 232-7662, or Thad Domick can be contacted by email at [tdomick@gcdcwws.com](mailto:tdomick@gcdcwws.com). If you would like an electronic version of this form it can be found on our web site at <http://gcdcwws.com> or contact Thad by email.

#### General Requirements

Nondomestic users shall have a sampling manhole outside that provides access to the discharge from their facility.

Nondomestic Users with a process waste water discharge shall have a sampling manhole outside that provides access to the wastestream without sanitary waste contribution.

Multi-tenant spaces are required to install two separate sewer lines in the building. One line will be for sanitary sewage and the other for process waters. The process line will be brought outside each tenant space. Each tenant space is required to submit a separate application form.

#### Transferability:

"Nondomestic Discharge Permits" are not transferable. New owners are required to apply for a new permit by completing an "Application for Nondomestic Discharge Permit." New applications are also required upon change of ownership, remodeling, addition, or change of use of the building.

#### Payment:

**The Permit fees vary based on the type of discharge.** The review letter sent out will include any additional permit fee amounts owed. A complete list of permit fees are available on the web site.

#### Definitions:

See the Sewer Use Ordinance online at <http://gcdcwws.com> for a complete set of definitions and requirements for discharge to the sewer.
